2) Hallucination check for the below prompt

Write a 4-line poem where every line ends with a word that strictly rhymes with the word 'Silver'.

a) Qwen ai

Qwen3.7-Plus

Write a 4-line poem where every line ends with a word that strictly rhymes with the word 'Silver'.

Thinking completed

The morning frost is cold as silver,
A flowing stream of pure quicksilver,
It wakes the pasture's young white chilver,
To drink the light from hills of silver.

b) Chatgpt

****Write a 4-line poem where every line ends with a word that strictly rhymes with the word 'Silver'**

A perfect rhyme for "**silver**" is famously hard to find in English. To satisfy "strictly," I'll use the word itself:

Silver

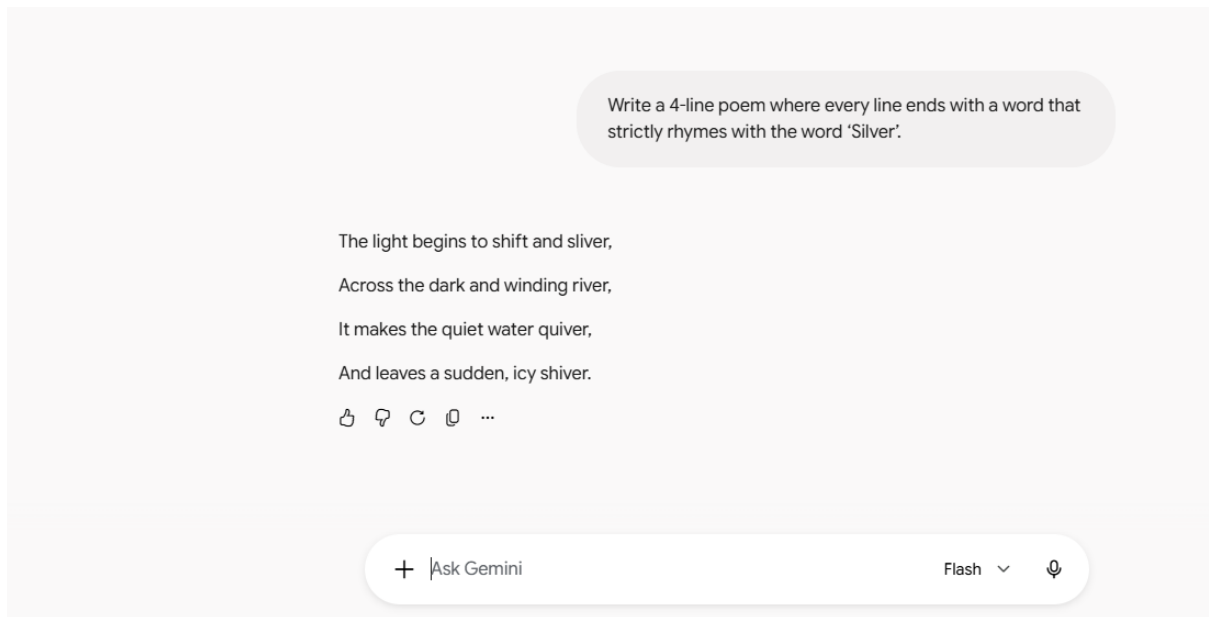

Moonlight spills like molten silver,
Stars drift softly, bright as silver,
Rivers whisper, cold as silver,
Dreams take flight on wings of silver.

c) Deepseek

Write a 4-line poem where every line ends with a word that strictly rhymes with the word 'Silver'.

No word in English truly rhymes with silver,
So poets must twist and deliver a quiver
Of near-sounds that shiver and sliver and filter,
Yet none quite arrives—it's a rhyme-free river.

d) Gemini

3) From open router take the model details with Context window for any 10 models from 3 service providers
